

Pre Conditions

At least one project with {project_id} created and then deleted

Steps to Reproduce

- POST http://localhost:4567/project
- DELETE http://localhost:4567/project/{project_id}
- POST http://localhost:4567/project

Bug Description

Although the project was deleted, the final added project will have the project_id = project_id (previous) + 1. There is a background tally going which cannot be reversed, despite old tasks being deleted.

Frequency

Every time

Productivity Impact

Low, this is just to do with project numbers

Notes

None
